

The Building's History

The building's history begins in 1888, when **The Pioneer Furniture Company** built the three-story brick building as a warehouse and shipping center. Around 1941, the **Farmer's Store** took over the space and used it as a warehouse. More recently, the front portion of the building housed **Harley Davidson Sport Motors**. In 2007, ECCT bought the buildings and began an extensive remodeling project. Today, the buildings house all operations of ECCT.

The Oxford and ECCT provide the flexibility you need for your next event. Whether it's a full day wedding ceremony and reception or a half day training session and trade show, there are any number of creative ways to use the available spaces.
