

Residential Lawn Mowing

Eco Grounds Care provides a 6-Month Seasonal Lawn Mowing service,

You can choose service weekly or mixed, to satisfy your preferred lawn mowing frequency. Please note that we may start a bit earlier or later than April 15, depending on the grass growing conditions. However, regardless of when we start, we will cut grass for a total of 6 months.

* Weekly service:

April 15 to October 15 (26 service calls)

* Split schedule:

Includes weekly mowing from April 15 to June 15 and bi-weekly mowing from June 15 to October 15 (17 service calls)

As per your service schedule, we mow, trim and power blow your lawn, and power blow your lawn areas.

Grass clippings are mulched and left on lawn, dispersed by power blower.

Occasionally grass mulch amounts may be too great and noticeable if left on the lawn, in which case we will pick up and dispose of excess mulch. Grass mulch disposal is charge extra.

Mowing height is 2.5in. unless customer specifies differently.

Before and after this 6 month period we are available to provide lawn mowing service on a "per call" basis.

RATES

Find out the total combined size of all the areas to be mowed, in square feet. Including the front and back lawn, boulevard, side strip, etc.

Once you have the total size of the areas to be mowed you can look in the two tables below to find your rate per cut and per month, for weekly or split service.
